Two Paws Up, Happy Camp for Dogs

Two Paws Up offers a full range of training and behavior modification strategies for your dog. We have group classes, In Board and Day Camp Training Programs, and Private Lessons. All classes are held at Two Paws Up facility 27361 N Lake Wohlford Rd Valley Center, just north of Woods Valley Rd. The facility has a lighted field for evening classes.

Why Obedience Training?

Safety A well trained dog listens! A well trained dog will not dash out of the front door and into the street. A well trained dog will not jump up on the counter and eat things that could harm him. A well trained dog will not knock you or your grandma down with an overexcited greeting. A well trained dog will not drag you down the street when all you want is a leisurely walk.

Socialization/Avoidance Training gives you and your dog techniques to use when greeting other dogs and people. You also learn how to read the body language of approaching dogs for a comfortable greeting.

Confidence A well trained dog gains confidence from learning how to behave and knowing what is expected. If your dog is shy or withdrawn, obedience training makes your dog more willing to interact with the world. After training, you will have a calm, balanced dog.

Creating a Bond with your Dog Training makes your dog much more attentive to you and your actions. A well trained dog is much easier to handle and more fun to be with than an unruly one. Friends and family will enjoy your four-legged friend too.

In Camp & Day Camp Training

Head Start

This is a program for people who would like to get a solid start with training. Once your dog has completed this program you and your dog will be encouraged to join our next scheduled Group Class to finish your training.

10 days Boarding + 20% off classes

Board & Train

Do you need your dog trained and socialized but have no time to do it? Then this is the program for you. We will do the training for you and then teach you what your dog has learned with us. Your dog will sit, down, come, wait, stay, leave it, and loose leash walk, and heel. May master some off leash commands, depending on temperament and length of stay.

21 to 45 day obedience training

Day Camp Training

For dogs who have specific undesirable behaviors or socialization issues that are correctable in a limited number of sessions. Along with the private training session, your dog has the opportunity to exercise and play at our day camp. Your dog will learn the proper corrections for unwanted behavior and your dog will be taught a "go to your bed" command. At the end of the day, plan on a 15 minute personal session with the trainer for feedback, follow-up and specific homework instructions. **\$50.00**
